

STATEMENT OF PURPOSE

RS21424

This Senate concurrent resolution would direct the Legislative Council Interim Committee on Energy, Environment and Technology to investigate the economic, social and environmental impacts of the wind industry on the state of Idaho, and whether power sold by a renewable qualifying facility to a utility at avoided cost should also transfer to a public utility, the environmental attributes of that qualifying facility, or whether such environmental attributes should be retained by the qualifying facility.

FISCAL NOTE

The fiscal impact is those costs arising out of the Interim Committee on Energy, Environment and Technology holding meetings to discuss these issues.
